COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

The Examiner's Reasons for Allowance include wording adopted from some but not all of the allowed claims. There is to be no implication all of the claims are to be construed by the Reasons for Allowance. Each claim should be given an interpretation based on its own content without reading into it any limitations imported from the specification or other claims based on the Reasons for Allowance.

On the present record there is no reason for rejection of any of the claims as they are individually presented and each given its broadest reasonable interpretation.

Respectfully submitted,

Gordon H. Telfer

Request for Amendment of Typographical Error  
37 CFR 1.312; MPEP §1302.04

Applicant requests an amendment to correct an inconsistency in the specification in referring to a figure of the drawing. Specifically the amendment requested is:

Page 10, line 19, change "Fig. 2" to -- Fig. 3 --

because the orthogonal locations of the elements 56 referred to in the sentence are shown in the latter figure rather than the former.

This error was noted only after review of the application following a first action allowance.

In view of the minor nature of the correction, it is requested the Examiner enter the amendment in accordance with MPEP §1302.04 without need for a formal amendment by applicant.

Respectfully submitted,

Gordon H. Telfer
